

MARC GERALD MAYAO

NetSuite Application Support & Administrator

marcgeraldmayao@gmail.com | 0907 295 9101 | linkedin.com/in/marcmayao | github.com/mgmayao | Mandaue City, Philippines

PROFESSIONAL SUMMARY

NetSuite Application Support & Administrator with hands-on experience maintaining ERP master data, building SuiteFlow approval workflows, and supporting day-to-day operations across Finance, Sales, Parts, and Vehicle teams. Skilled in troubleshooting NetSuite issues, running CSV mass uploads for large-scale data updates, and partnering with departments to redesign manual processes into automated, auditable workflows. Focused on data accuracy, system integrity, and reducing manual work through configuration rather than custom development.

CORE SKILLS

ERP & NetSuite: NetSuite Administration, SuiteFlow, CSV Import, Saved Searches, User Management, Role Management, Workflow Automation, Master Data Management, ERP Support

Technical: JavaScript, TypeScript, Next.js, React, Tailwind CSS, HTML, CSS, Git, SQL

IT Support: Troubleshooting, Networking, Windows Administration, Hardware Maintenance

PROFESSIONAL EXPERIENCE

Application Support – NetSuite Administrator
Global Autodistribution Inc.

December 2024 – Present
Bakilid, Mandaue City

- Provide daily NetSuite application support across Finance, Sales, Parts, and Vehicle departments.
- Manage and maintain NetSuite master data, ensuring accuracy across all record types.
- Create and modify Vehicle Information, Customers, Vendors, Employees, Items, Transactions, and other NetSuite records.
- Perform CSV mass uploads for creating and updating master data in bulk.
- Troubleshoot NetSuite issues and provide direct, timely support to end users.
- Coordinate with different departments to identify and implement ERP process improvements.
- Ensure data accuracy and system integrity across the platform.

KEY PROJECTS DELIVERED

- Parts Cannibalization — Developed and implemented SuiteFlow approval workflows to control and track part reallocation between vehicles.
- Vehicle Inventory Accuracy — Enhanced inventory monitoring and automated approval workflows to reduce stock discrepancies.
- Parts Inventory Accuracy — Improved inventory validation and reduced manual intervention through automation.
- Payment Terms — Configured approval workflows for payment terms changes, strengthening the finance approval process.

IT Support
Gaisano Country Mall

November 2024
Banilad, Cebu City
